MEMORANDUM OF UNDERSTANDING

BETWEEN

UNIVERSITAS YARSI

AND

Association for Medical and Bio-Informatics Singapore

No : 008/MOU/REK/UY/IV/2018
MoU/AMBIS-UY/1/2018

1. *The Scope of this Agreement*

Association for Medical and Bio-Informatics Singapore (hereafter referred to as AMBIS, address: VBox 889312, Singapore 919191) and Universitas YARSI (hereafter referred to as YARSI, address: Jl. Letjend Suprapto, Cempaka Putih, Jakarta 10510, Indonesia) aim to establish and develop a strategic collaborative relationship in order to promote scientific exchange between the two organizations through mutual assistance in the areas of medical and bio-informatics, through conferences, meetings, seminars, workshops and/or symposia.

AMBIS was set up with the objective to promote growth and excellence in the exciting disciplines of both medical informatics and bioinformatics, in Singapore. Originally set up in 1986 as the Association for Informatics in Medicine, Singapore (AIMS) and later renamed in 2003 as AMBIS, the association is actively involved in promoting collaborations and exchanges among the medical and bio-informatics community through conferences, meetings, seminars, workshops and symposia. AMBIS is the official national entity representing Singapore in the Asia Pacific Association for Medical Informatics (APAMI) and in the International Medical Informatics Association (IMIA).

YARSI is an Indonesian premier research university which strives to enhance and strengthen its educational programs and has taken various initiatives to complement its educational excellence. Universitas YARSI started its history 51 years ago with medical school for undergraduate students. It now has 5 faculties: medicine, law, economy, information

technology and psychology. Setting the goal to be in 500 top universities in the world, it's now committed to research more than ever. YARSI research institute was established in 2012 to support its mission to be a top-notch research university. It consists of six core research centres: genetics, stem cell, herbal, telomere, e-health and halal research centres.

The Memorandum of Understanding will serve as a general framework for institutional co-operation. It will facilitate organization members to discuss and develop specific programmes of co-operation. Co-operative relations shall be carried out through activities such as:

- Joint research projects and consultancy
- Joint conferences and workshops conferences, meetings, seminars, workshops and/or symposia.
- Visits by faculty, professional staff and students

2. *Confidential Information*

Both Organizations acknowledge that all information which is labelled, at the time of input, by the disclosing Organization, as "Confidential Information" and which has come or will come into the possession or knowledge of the receiving Organization, will be considered as confidential and proprietary information and the receiving party undertakes not to disclose or divulge such information to other parties.

3. *Intellectual Property Rights*

Both Institutes agree that all future intellectual property rights and other future gains, resulting from joint research work shall be shared between the Organizations.

4. *Organization Coordinators*

Each Organization will nominate Coordinator who will communicate regularly with his/her opposite number to monitor the progress of collaborative and member exchange arrangements.

5. *Terms of the Agreement*

This MoU is valid for two years from the date of signing. It may be renewed with mutual agreement. Detailed collaboration agreements are expected to be formed within the period of this MoU.

This Memorandum of Understanding is subject to the rules and regulations governing AMBIS and YARSI.
